

## **Cases of enforced disappearances and extrajudicial killings in Balochistan in 2023**

For many decades, Pakistan has committed gross human rights violations in Balochistan. Enforced disappearances, extrajudicial killings, and the discovery of mutilated bodies of Baloch human rights defenders and socio-political activists are aspects of human rights violations. Various human rights organizations, including Human Rights Watch, reported that there had been an upsurge in the number of missing persons and mutilated bodies in recent months. According to data collected by the Baloch Human Rights Council (BHRC), enforced disappearances and the "kill and dump policy" had brought brutality in the province to an unprecedented level. From January 2023 to December 2023, a total of 416 people became the victims of enforced disappearances. 36 bodies of the missing persons were recovered in many parts of Balochistan with marks of torture and bullet wounds.

BHRC has verified these figures from different sources and the victims' relatives.

## About BHRC

The Baloch Human Rights Council (BHRC) is an international non-profit organization highlighting human rights violations in Balochistan. The aim is to inform the global community about the daily human rights violations in Balochistan. The Baloch Human Rights Council (BHRC), since its formation in 2008, has been endeavouring tirelessly to help the Baloch people in this critical juncture of their national history by highlighting the gravity of the humanitarian crisis prevailing in Balochistan in international fora. The BHRC believes that, like other peoples in the world, the Baloch also have the right to live in a dignified way in a peaceful environment free from state repression.
